1. Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted.
2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. Continuation of 4(e) Other: All claims being currently amended must be submitted with markings to indicate the changes that have been made relative to the immediate prior version of the claims. The text of any added subject matter must be shown by underlining the added text. The examiner directs the attention of applicant specifically to claim 29 and claim 46 wherein the limitation "by directing the beam through the central aperture of the mask such that the mask blocks a peripheral part of the beam of laser light" has been added since the immediate prior version of the claims (2/19/08), but it has not been underlined (but needs to be underlined). The examiner doesn't notice any additional non-marked amendments, but urges the applicant to double check as well.
